FOR IMMEDIATE RELEASE

Global Shop Solutions Celebrates Grand Opening of New 10,000 Square-Foot Facility at Headquarters

THE WOODLANDS, TX, JULY 2017 – After a year full of vision and construction, [Global Shop Solutions](http://www.globalshopsolutions.com), a global developer of ERP software for the manufacturing industry, opened its doors to their new state-of-the-art facility, making it the third building at their headquarters in The Woodlands, TX.

On Thursday, June 29, 2017, nearly 200 people from the Greater Houston area gathered at the facility for the ribbon-cutting ceremony. The modern 10,000 square-foot building is home to a 72-seat training room full of the latest technology, a community dining/kitchen area complete with a market, and an outdoor, covered patio designed to seat up to 100 people.

“Our new building is a springboard to another 40 years of loving, caring, and serving our great customers,” says President & CEO Dusty Alexander. “I’d like to thank our internal team comprised of Director of Human Resources Jayland Keeney, Vice President of Research & Development Erika Klein, and Designer Andrea Alexander, for leading the design and build of a modern and collaborative space for our Global Shop Solutions

employees and customers. We invite all manufacturers to contact us, schedule a visit, and give us the opportunity to show you why we are different.”

Additional recognition is due to The Woodlands Township, LDF Construction, BD Electric, Zeigler Cooper Architects, and Steelcase, for without them and their individual contributions, this project would have not been possible. This new facility is the stepping stone to pave the way for future innovation within the ERP software industry and bring business to the surrounding area.

About Global Shop Solutions

We simplify your manufacturing.[™] Since 1976, Global Shop Solutions has been the exclusive provider of the One-System ERP[™] Software designed to simplify your manufacturing. The efficiency delivered through their ERP software provides real-time inventory accuracy, improved on-time delivery, lower administrative costs, increased sales and improved customer service. Real-time data with high-level accuracy empowers business leaders to be proactive in their decision making. Global Shop Solutions customers enjoy a significant ROI to their bottom line. Headquarters in The Woodlands, Texas includes a state-of-the-art R&D facility and their Global Shop Solutions University training center. Through its offices in the U.S., Mexico, Indonesia, Singapore, Australia, New Zealand and the United Kingdom, it maintains its place of prominence in the ERP manufacturing software industry.
